PROFILE

Fifth-semester Information Systems undergraduate at UPN Veteran Jakarta with hands-on experience in UI/UX design for web and mobile applications. Experienced in user research, wireframing, prototyping, and responsive interface design, with leadership experience as a UI Lead and UI/UX Mentor. Passionate about creating user-centered digital products and seeking a UI/UX Designer or Product Designer Internship.

EDUCATION

UPN Veteran Jakarta

Bachelor of Information System

Current GPA: 3.90/4.0

Jakarta, Indonesia

2024 - Present

WORK EXPERIENCE

UI Lead

Project Dignition | KSM Veterantech UPN Veteran Jakarta

Jakarta, Indonesia

Feb 2026 - Present

- Led the UI design process for web and mobile learning platforms, ensuring consistent and user-centered interfaces.
- Designed high-fidelity interfaces, reusable design system components, and collaborated with developers to deliver intuitive user experiences.

UI/UX Mentor

KSM Multimedia UPN Veteran Jakarta

Jakarta, Indonesia

Apr 2026 - Present

- Mentored students in UI/UX fundamentals, including user research, wireframing, prototyping, and design thinking.
- Guided mentees through hands-on projects and provided design feedback using Figma and FigJam.

UI/UX Mentor

KSM Veterantech Trial Study Club

Jakarta, Indonesia

Aug 2025 - Dec 2025

- Facilitated UI/UX learning sessions covering user-centered design and the end-to-end product design process.
- Guided participants in creating user flows, wireframes, prototypes, and improving interface usability.

PROJECTS

PungutYuk | Project Link

UI/UX Designer | Figma, Maze

Jakarta, Indonesia

Apr 2025 - Jun 2025

- Designed a mobile application using a user-centered design process, from user research to high-fidelity prototyping.
- Conducted usability testing and iterated designs to improve navigation, accessibility, and overall user experience.

SplitBill (Group Food Ordering Platform) | Project Link

UI/UX Designer | Figma

Jakarta, Indonesia

May 2025 - Oct 2025

- Designed a mobile-based group food ordering platform with automatic split bill functionality using a user-centered design approach.
- Created user flows, wireframes, high-fidelity interfaces, and collaborated on UML-based system design for a client-server architecture.

Sunity | Project Link

Frontend Developer | React, Vite, Tailwind CSS, TanStack Query, OpenAPI, Midtrans

Jakarta, Indonesia

Mar 2026 - May 2026

- Developed responsive web interfaces and integrated APIs using React, Vite, and Tailwind CSS based on UI/UX designs.
- Built authentication, campaign, donation, and profile-related features while collaborating with designers and backend developers.
